Charging Your Device

Plug the included USB type-C cable into the speaker's charging port, and connect another end of the cable to a power adapter (not included). Allow approximately 4.5 hours to full charge the battery.

When the battery is low and the blue light slow flash, please charge it.

The indicate light is red color when it's charging.
The red light will be off when it's full charged.

Note: We recommend using a USB wall adapter with a **DC 5V output**.

Initial Setup

1. Once your speaker is fully charged, press and hold the  Power button until you hear a voice prompt indicating the device has entered BT pairing mode.
2. On your smartphone or tablet, search for the BT device named "**Bobtot Sound Air1**" and tap to connect.
3. A prompt will play once pairing is successful.

Note:

1. When you turn on the speaker but no connection, it will automatically shut down after 10 minutes.
2. When you connected the speaker but no playback, it will automatically shut down after 20 minutes.

TWS Sync Mode

1. Long press the "○" about 2s on both speakers to turn them on, and the blue light flashes.
2. Long press the "🔊" on any one speaker, a prompt sound "connected" indicates the speakers enter into pairing mode, the indicator light of one speaker turned solid blue.
3. On your smartphone or tablet, search for the BT device named "**Bobtot Sound Air1**" and connect it, you could hear the sound "connected" again, which means connect successfully. You can enjoy the music with two speakers together.

Notes:

- *In TWS Mode, turn off one of the speakers, both of them are off.
- *Long press "🔊" to exit TWS mode

Light Status

Mode Indicator light

Power supply Indicator light

•	Blue light flash: in BT pairing or TWS pairing status

FCC Warning

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection

FCC Warning

against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

FCC Warning

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
